IMPORTANT! Make sure the wall in the installation area is free of dust, and is clean and dry.

- Remove the liner from the adhesive pads on the back of the whiteboard.
- Lift the board onto the lower mounting clips.
- Press the center of the board so the adhesive adheres to the wall. This will hold the board in place while you secure the mounting clips to the frame.
- If your board has a map rail, attach it now.
- Tap down the top clips to touch the top of the frame.
- Secure the top and bottom of the frame to the mounting clips with self-tapping screws for aluminum frames or wood screws for wood frames.
